Trusted Worldwide
Expert for Material Handling
Equipment and Warehouse Storage Solutions

仓 储 笼 Wire Container | 物流笼车 Roll Cage | 货架层网 Wire Decking | 工业托盘箱 Industrial pallet container

聚力前行 · 智启仓储未来

物流笼车 / Roll Cage

仓储配套 / storage Accessories

- **仓储周转** / Storage Turnover
- **物料搬运** / Material Handling
- **货架存储** / Sheli Storage
- **厂区转运** / Plant Logistics

品类齐全，适配性强，满足标准化与个性化仓储建设需求。

Complete product range with strong adaptability for standardized and customized storage projects.

聚力前行·智启仓储未来

About us 公司简介

本公司成立于 2018 年，是一家专注物料搬运设备、仓储配套产品及整体仓储解决方案的现代化智造企业，多年来深耕仓储物流配套领域，聚焦产品研发、精益生产与海外市场深耕，始终以标准化、高品质、定制化的产品与服务，为全球客户提供稳定可靠的仓储搬运配套支持。

Our company was established in 2018 and is a modern intelligent manufacturing enterprise specializing in material handling equipment, warehousing supporting products and overall warehousing solutions. Over the years, we have been deeply engaged in the warehousing and logistics supporting field, focusing on product research and development, lean production and in-depth overseas market cultivation. We always provide standardized, high-quality and customized products and services. Provide stable and reliable warehousing logistics and material handling support for global customers.

VASTRON

公司主营物流笼车、仓储笼、货架层网、及全套仓储配套产品，覆盖仓储周转、物料搬运、货架存储、厂区物流转运等全场景应用，产品品类齐全、适配性强，可满足不同行业、不同场地的标准化与个性化仓储建设需求。

The company mainly deals in logistics Roll Cage, Wire Container, Wire Decking, and a full range of warehousing supporting products, covering all application scenarios such as warehousing turnover, material handling, shelf storage, and factory area logistics transfer. The product categories are complete and highly adaptable, which can meet the standardized and personalized warehousing construction needs of different industries and different sites.

Since its establishment, the enterprise has been deeply engaged in overseas markets and focused on exports. Its market focus is on international trade, and its core customers are widely distributed in multiple countries and regions such as Europe, Southeast Asia, and the Middle East. It has long served overseas traders, large-scale warehousing and logistics enterprises, and manufacturing factories. Relying on stable product quality, compliant export standards, and a mature foreign trade service system. We have accumulated a good overseas reputation and stable long-term cooperative customer resources, and are a reliable supply chain partner for Chinese material handling and transportation equipment in overseas markets.

自成立以来，企业深耕海外、立足出口，市场重心聚焦国际贸易，核心客户广泛分布于欧洲、东南亚、中东等多个国家和地区，长期服务海外贸易商、大型仓储物流企业、制造业工厂，凭借稳定的产品品质、合规的出口标准与成熟的外贸服务体系，积累了良好的海外口碑与稳定的长期合作客户资源，是海外市场值得信赖的中国物料搬运载具供应链合作伙伴。

深耕物料搬运载具与仓储配套行业多年，专注细分赛道，熟悉产品尺寸标准、承重标准、工艺要求与使用场景，精准匹配客户的采购需求，避免通用化产品的适配短板。

Having been deeply engaged in the material handling and transportation equipment and warehousing supporting industry for many years, we focus on niche markets, are familiar with product size standards, load-bearing standards, process requirements and usage scenarios, and accurately match customers' purchasing needs to avoid the shortcomings of universal product adaptation.

全程按照国际出口工艺、质量标准生产，产品适中国国内、欧洲、美洲、中东、东南亚市场的仓储使用规范，防锈、承重、焊接工艺、耐用性均符合行业标准。支持的大产能交付能力、定制化产品等多种合作模式。

The entire process is produced in accordance with international export technology and quality standards. The products are suitable for storage and usage in the domestic Chinese market, Europe, America, the Middle East, and Southeast Asia. Rust prevention, load-bearing capacity, welding technology, and durability all meet industry standards. It supports multiple cooperation models such as large-capacity delivery capabilities and customized products.

依托自主生产、精益化管理与成熟供应链，在保证高端工艺与稳定品质的前提下，严控生产成本，为客户提供高性价比、高稳定性的仓储物料搬运设备，具备极强的市场竞争力。

Relying on independent production, lean management and a mature supply chain, we strictly control production costs while ensuring high-end craftsmanship and stable quality, providing customers with high cost-performance and highly stable warehousing and material handling equipment, which has extremely strong market competitiveness.

我们将持续聚焦全球仓储物流智能化、标准化发展趋势，持续优化产品工艺、升级解决方案，致力于成为全球值得信赖的物料搬运设备与仓储解决方案行业专家。

We will continue to focus on the global trends of intelligent and standardized warehousing and logistics, constantly optimize product processes and upgrade solutions, and strive to become a trusted expert in the global material handling equipment and warehousing solutions industry.

VASTRON
ROLL CAGE

坚固的框架
STURDY FRAME

可折叠层板
FOLDABLE SHELF

可折叠底座
FOLDABLE BASE

两个定向脚轮
TWO FIXED CASTERS

两个万向刹车脚轮
TWO SWIVEL BRAKE CASTERS

VASTRON

Roll Cage | 笼 车

1. 单元化移动集装载具，操作灵活、运输方便、存储容量大；
2. 底部安装有四只脚轮，推动时劳动强度低，装卸效率高；
3. 笼车可叠放，占用面积小，被广泛应用于大型物流配送、工厂物料周转、快递集装集运等业务场景。

1.Unitized mobile container loading devices are flexible to operate, convenient to transport and have a large storage capacity.

2.It is equipped with four casters at the bottom, which reduces the labor intensity when pushing and ensures high loading and unloading efficiency.

3.Roll cage can be nested, occupy a small area, and are widely used in large-scale logistics distribution, factory material turnover, express containerization and transportation, and other applications.

RC-1

Nested double-sided Roll Cage | 嵌套两面笼车

1. 底部采用A型设计，可折叠并可互相套嵌，节省空间；
2. 可增加为三面或四面台车；
3. 配有编织绑带，可拆卸的隔网，塑料把手，铭牌。

1.The bottom adopts an A-shaped design, which can be folded and interlocked with each other, saving space.

2.It can be increased to a three-sided or four-sided Roll Cage.

3.Equipped with woven straps, detachable mesh, plastic handles and nameplates.

RC-2

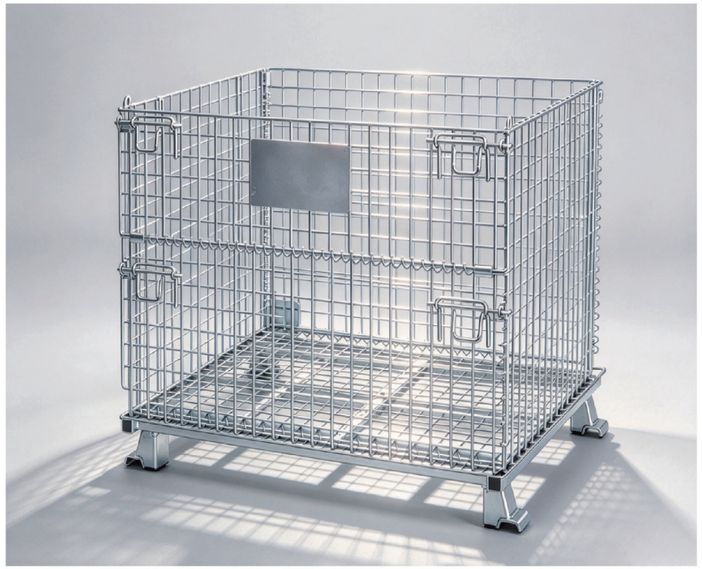
Nested Three-sided Roll Cage | 折叠三面笼车

1. 两侧共三面钢丝网框围挡，正面完全开放式无门；
2. 三面围挡有效阻挡货物侧翻掉落，对比四面带门笼车省去开门、扣锁步骤，拣货、装卸速度提升明显；
3. 适合大批量箱装货物、包裹、快消品闭环配送；

1. There are three steel wire mesh frame fences on both sides, and the front is completely open without a door.

2.The three-sided barriers effectively prevent goods from overturning and falling off. Compared with the four-sided Roll Cage, it eliminates the steps of opening the door and locking, significantly improving the speed of picking and loading/unloading.

3.Suitable for closed-loop distribution of large quantities of containerized goods, parcels and fast-moving consumer goods.



VASTRON

Wire Container | 仓储笼

1 仓储笼是由高强度钢丝点焊网格与底部框架组成，折叠式结构，底部配备加强槽钢，可堆叠，表面可喷塑或电镀锌防锈；

2 可折叠设计，空载折叠存放节省仓储空间。满载可以多层堆叠。坚固耐碰撞，可循环反复使用，替代一次性包装，降低耗材成本；

3 广泛用于工厂零部件存储周转、电商原料及成品仓储、汽配五金、农产品、快递物料暂存，适合仓库静态堆放、叉车转运作业；

1.The Wire Container is composed of high-strength steel wire spot-welded grids and a bottom frame. It features a folding structure, with reinforced channel steel at the bottom for stacking. The surface can be powder coating or electric galvanized for rust prevention.

2.Foldable design, it can be folded for storage when empty, saving storage space. Full loads can be stacked in multiple layers. Sturdy and impact-resistant, it can be recycled and reused repeatedly, replacing disposable packaging and reducing consumable costs.

3.It is widely used for the storage and turnover of factory parts, the warehousing of raw materials and finished products for e-commerce, auto parts and hardware, agricultural products, and the temporary storage of express delivery materials. Suitable for static stacking in warehouses and forklift transfer operations.

AWC

Amrica Style Wire Container | 美标仓储笼

1 可折叠设计，空箱节省空间；

2 网格可视，盘点便捷；

3 可多层堆垛，提升仓储利用率；

4 搬运灵活，通用性强，功能可拓展.

1.Foldable design, empty box saves space.

2.Grid visibility, convenient inventory taking.

3.It can be stacked in multiple layers to improve the utilization rate of the warehouse.

4.It is flexible to handle, highly versatile and has expandable functions.

EWC

Euro Style Wire Container | 欧标仓储笼

1. 可折叠设计，空箱节省空间；
2. 通风透气、可视化管理，货物一目了然，便于盘点、清点和快速拣选；
3. 可多层堆垛，提升仓储利用率；
4. 搬运灵活，通用性强广泛商超、瓶坯、葡萄酒等行业.

1.Foldable design, empty container saves space.

2.Ventilation and air circulation, visual management, goods are clearly visible at a glance, facilitating inventory taking, counting and quick picking.

3.It can be stacked in multiple layers to improve the utilization rate of the warehouse.

4.It is flexible in handling and highly versatile, widely used in supermarkets, preforms, wine and other industries.

VASTRON

SPC

Steel Pallet container | 工业托盘箱

1. 承载能力强，抗冲击、耐磕碰，使用寿命长；
2. 环境适应性好,防火阻燃；
3. 形式灵活，支持非标尺寸定制；
4. 折叠款空箱省空间,叉车作业便捷,局部变形可以焊接校正修复，局部损坏不用整箱报废.

1.It has strong load-bearing capacity, is resistant to impact and bumps, and has a long service life.

2.It has good environmental adaptability and is fireproof and flame-retardant.

3.Flexible form, supporting customization of non-standard sizes.

4.The folding empty container saves space, is convenient for forklift operation, local deformation can be welded and corrected for repair, and local damage does not require the entire box to be scrapped.

VASTRON

IBC

Intermediate Bulk Containers | 中型托盘箱

1. 钢制外壳强度高，箱体可重复循环使用，寿命长；
2. 空箱折叠，大幅降低回程物流成本；
3. 温度适应范围广、防火安全；
4. 组装简单，装载效率高，环保可回收.

1.The steel casing has high strength, and the container body can be reused in a cycle with a long service life.

2.Empty container folding significantly reduces the return logistics cost.

3.Wide temperature adaptability and fire safety.

4.Simple assembly, high loading efficiency, environmentally friendly and recyclable.

VASTRON

SR

Stacking Rack | 堆垛架

1. 无需安装，灵活移动；
2. 存储搬运一体化，减少倒货；
3. 立体堆垛，提升空间利用率；
4. 坚固耐用，承载能力强；
5. 通用性强，适配多行业.

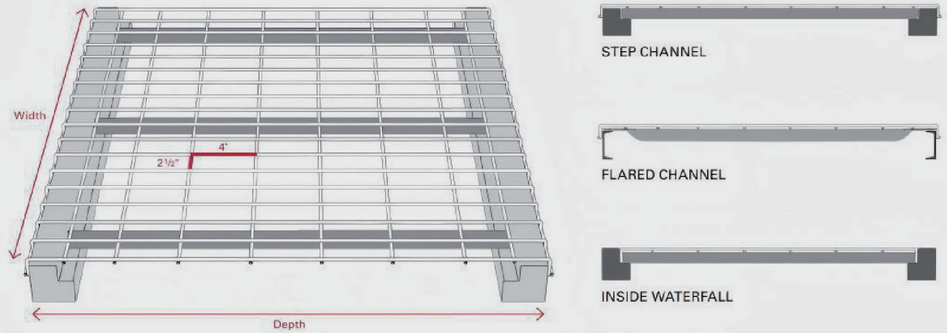
1.No installation required, flexible to move.

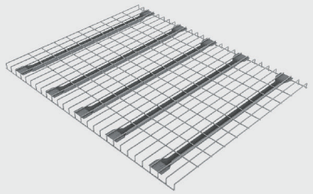
2.Integrated storage and handling, reducing the risk of goods being transferred.

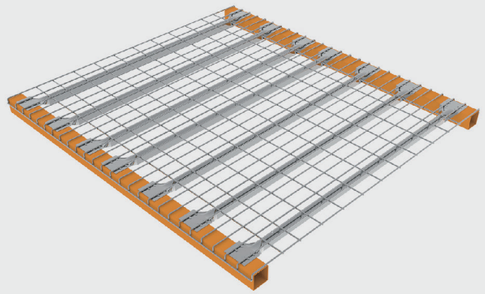
3.Three-dimensional stacking enhances space utilization.

4.Sturdy and durable with strong load-bearing capacity.

5.It has strong versatility and is compatible with multiple industries.







NDS

Step Channel Wire Decking | 货架层网（S型）

1. 支撑更均匀，防止货物跌落，提升整体存储安全性；
2. 通透可透视，便于清扫落灰；
3. 通风透气，符合消防要求，防火安全性能优于实心层板；
4. 快速拆装，适配性强；
5. 应用于阶梯桁架，分为标准折弯和内折弯托盘两种.

1.The support is more uniform, preventing goods from falling and enhancing the overall storage security.

2.Transparent, it is convenient to clean up dust.

3.It is well-ventilated and breathable, meeting fire protection requirements, and its fire safety performance is superior to that of solid laminated boards.

4.Quick disassembly and assembly, with strong adaptability.

5.It is applied to step trusses and is divided into two types: standard bent and inwardly bent wire decking.

NDF

Flared Channel Wire Decking | 货架层网（F型）

1. 支撑更均匀，防止货物跌落，提升整体存储安全性；
2. 通透可透视，便于清扫落灰；
3. 通风透气，符合消防要求，防火安全性能优于实心层板；
4. 快速拆装，适配性强；
5. 应用于矩形桁架；

1.The support is more uniform, preventing goods from falling and enhancing the overall storage security.

2.Transparent, it is convenient to clean up dust.

3.It is well-ventilated and breathable, meeting fire protection requirements, and its fire safety performance is superior to that of solid laminated boards.

4.Quick disassembly and assembly, with strong adaptability.

5.Applied to rectangular trusses.

WD-HK

Hanging Divider | 悬挂式分隔网

1. 不占用货架有效摆放面积；
2. 拆装快速，适配性广；
3. 重量轻，成本更低；
4. 上下都有约束，直立垂直度好.

1.It does not occupy the effective placement area of the shelves.

2.Quick to disassemble and assemble, with wide adaptability.

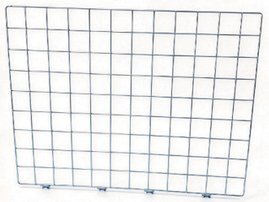
3.Light in weight and lower in cost.

4.Both the top and bottom are restricted, and it has good vertical perpendicularity.

WD-SI

Snap-in Divider | 卡扣式分隔网

1. 1.稳定性强，不容易晃动倾倒，适合较重货品；
2. 2.免工具，插拔调整灵活，可任意改变货位宽度；
3. 3.适合仓库频繁拣货的工况.



1.It has strong stability, is not easy to shake or tip over, and is suitable for heavier goods.

2.Tool-free, flexible insertion and adjustment, and the width of the storage position can be changed at will.

3.It is suitable for the working conditions where goods are frequently picked in the warehouse.

VASTRON

Safety Protection Fence | 安全防护围栏

1. 提高安全；
2. 遵守安全规定；
3. 可灵活性定制；
4. 耐用性和低维护成本；

1. Enhanced Safety.

2.Compliance with Safety Regulations.

3.Customization and Flexibility.

4. Durability and Low Maintenance.
